Technical Skills

Languages: Python, JavaScript, TypeScript, C++, C
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, FastAPI, REST & GraphQL APIs, JWT Authentication
AI / GenAI: Retrieval-Augmented Generation (RAG), Embeddings, Semantic Search, Vector Databases, Prompt Engineering, AI Agents & Tool/Function Calling
Cloud & DevOps: AWS (EC2, S3, IAM, CloudWatch, VPC), Git, GitHub, CI/CD, Docker, Linux
Databases: MongoDB, MySQL, DynamoDB
Systems & Troubleshooting: Technical Issue Diagnosis, System Monitoring, Root Cause Analysis
Relevant Coursework: Operating Systems, Computer Networks, DSA, DBMS, Machine Learning, Cloud Computing, OOP

Experience

Co-Treasurer — PCCoE ACM Student Chapter

July 2025 – Present

- Led design and development of the chapter website, winning the Outstanding Website Award 2025 at the ACM India Annual Event among 200+ participating chapters.
- Owned budgeting, expense tracking, and fund allocation for a 150+ member chapter, maintaining 100% transparent reporting with zero discrepancies.
- Coordinated 25+ technical events, driving collaboration among 50+ students, faculty, and industry professionals.

Data Analyst Intern — Chinar Hospitality

June 2026 – August 2026

- Built an AI-powered Sales, Revenue, Inventory & Business Intelligence system for restaurant and catering operations, designing ETL workflows that diagnosed data inconsistencies and converted raw POS and inventory data into structured, reliable reporting datasets.
- Delivered interactive dashboards and visual reports surfacing revenue trends, inventory turnover, and demand patterns, collaborating cross-functionally with operations teams across multiple restaurant and catering engagements to support timely, data-driven decisions.

Projects

ExamSense AI | GitHub | Live Demo || *Next.js 14, TypeScript, FastAPI, MongoDB, RAG, LLM APIs*

2026

- Built a full-stack, AI-native academic intelligence platform serving departmental students, with JWT-based role authentication (Admin/Student), PDF uploads, and a queued background processing pipeline handling 100+ documents with error handling for reliable resolution.
- Engineered a RAG-based Ask-AI chat agent using sentence-transformer embeddings, vector search, and LLM tool calling to improve retrieval quality; shipped an analytics dashboard surfacing topic, difficulty, and repeated-question trends across 50+ queries.

CampusCare | GitHub | Live Demo || *React, Node.js, Express.js, MongoDB, Docker, Terraform, Ansible, GCP*

2026

- Built and deployed a full-stack campus complaint and facility management system with role-based workflows for reporting, triaging, assigning, tracking, and resolving maintenance issues across Student, Admin, and Staff portals.
- Automated cloud infrastructure provisioning and deployment using Terraform and Ansible on GCP Compute Engine, containerizing services with Docker Compose and configuring NGINX reverse proxy with isolated database networking.

Taskly | GitHub | Live Demo || *React, TypeScript, Supabase, Dexie.js, Zustand, PWA*

2026

- Built a local-first productivity platform with offline task management, habits, recurring tasks, subtasks, calendar planning, and cross-device synchronization using React, TypeScript, Zustand, and Supabase.
- Implemented IndexedDB persistence with Dexie.js, offline operation queuing, background cloud sync, Supabase Realtime updates, authentication, PostgreSQL Row Level Security, and PWA support.

Education

Pimpri Chinchwad College of Engineering, Pune

August 2023 – June 2027

Bachelor of Technology in Computer Engineering

Research & Intellectual Property

AgriTrade: A Smart E-Commerce Platform for Farmers

2025

1st Intl. Conference on AI, Computation, Communication & Network Security (AICCoNS 2025)

- * Co-authored research on an AI-driven agricultural marketplace with real-time price tracking, weather forecasting, and a scalable recommendation engine.
- * Developed the Agro Product App application under the research project, registered under the Copyright Act of India (Cert. No: LD-20250168587).

Certifications

- Claude 101 | Claude Code 101 | AI Fluency & Claude with Anthropic API | Anthropic
- Software Engineering Job Simulation | JPMorgan Chase & Co. (Forage)
- Data Analyst Job Simulation | Deloitte (Forage)
- Java Masterclass 2025: 130+ Hours of Expert Lessons | Udemy

Achievements

- Outstanding Website Award 2025 – PCCOE ACM • 1st Place – Codigo 2025, PCCOE • Best Paper Award – Tech Summit Baby Conference 2025, PCCOE
